French

PROFESSIONAL SUMMARY

Full-stack Software Engineer with experience in Java, Spring Boot, and Angular. Former consultant at Inetum (France), now based in Columbus, Ohio as a US Permanent Resident. Passionate about building scalable backend systems, developing clean REST APIs, and solving real-world problems through technology.

PROFESSIONAL EXPERIENCE

Software Engineer

Inetum

09/2023 | Rennes, France

- Developed full-stack features using **Java, Spring Boot, Angular**, Oracle, and Elasticsearch.
- Improved system performance and reliability through API optimization and bug fixes.
- Contributed to CI/CD workflows, code reviews, and Agile ceremonies.
- Improved a government digital platform built with **PHP Drupal**.

Software Engineer

Capgemini

05/2021 – 08/2023 | Nantes, France

- Developed backend services using **Drupal, Symfony, Spring, Node.js**.
- Built front-end features with **Angular, TypeScript, Sass, JavaScript**.
- Improved code quality, fixed production issues, and delivered new features in Agile teams.
- Contributed to projects such as **LesBonsClics, DPGT**, and **StaffingCGN**.

Software Engineer

Pellel Consulting

06/2020 – 09/2020 | Rennes, France

- Built a web-based video-conferencing platform using **Python Django**.
- Designed and implemented the database (**Merise, MySQL**).
- Developed frontend components with **HTML, CSS, JavaScript, Bootstrap**.

PROJECTS

Guinea Roads (Mobile App – Flutter): Transport route finder for Guinean public transportation.

Citoy-Kaidi (Web App – Spring/Angular): Administrative document management platform.

IsticGPT (AI Learning Platform – Spring/Angular): E-learning platform with AI assistance.

KanbanBoard (Angular + Spring): Task management web application.

Guinea-Geo API (Node/Express + MongoDB): REST API providing geodata for Guinea.
